

# Advanced Rehabilitation Centre

Tecumseh, Ontario, Canada - Completed in 2008

Advanced Rehabilitation Centre is a dedicated interdisciplinary team of professionals offering complete rehabilitation services to their patients and clients, who decided to relocate one of their treatment facilities to this new location and requested that the design of the space be reflective of their dynamic and advanced methods of treatment. This 6,000 sq. ft. facility was designed through in depth consultation and contains private areas for physiotherapy, chiropractic procedures, message therapy, a general sports clinic and staff administration areas.
